**THE FUN SUMMER CAMP WITH  
ALL CLASSES INCLUDED!!!**

**For Students in  
2nd-9th Grades**

### **ASTRO CAMP®**

In collaboration with Stennis Space Center ASTRO CAMP. The theme for this year's ASTRO CAMP® is "Next Generation Exploring the Moon Today ... Mars Tomorrow!" It includes the pilot of the new MOON to MARS curriculum modules directly supporting NASA's four mission areas. ASTRO CAMP® also incorporates math and science principles through fun, hands-on activities that teach teams of campers to work together to complete NASA science-directed missions with real-world applications.

### **Cub College Choir**

In Cub College Choir, participants will be introduced to good principles of singing, including correct posture, breath control, intonation, and articulation. All of the principles will be taught through the mode of fun and engaging songs.

### **Science Mania**

The Science Session will provide students with hands-on activities and demonstrations in the natural and physical sciences. Students will conduct scientific experiments using lab equipment. The Science Session will feature activities in biology, zoology, chemistry, and botany. The science session will also use the Stennis Space Center Astro Camp curriculum.

### **Move it or Lose it**

Health and Wellness: Students will learn about the benefits of healthy eating and living an active lifestyle. The students will participate in the harvest hustle nutrition game, broomball (street hockey) and various relay races.

### **Art Makes You Smart**

Students will discover a fun, creative, easy, and affordable way to produce multiple images of a design by engaging in Styrofoam Relief Printing. Students will make an impression on a sheet of Styrofoam, use a roller to apply ink to the Styrofoam, place a sheet of paper on top of the ink and rub it. Finally, the students will lift the paper off the inked Styrofoam and reveal the cool design that they've created. Awake the inner artist in you!
